### Address

Muang, Khon Kaen

## Technical Skills

- HTML5 / CSS
- JavaScript
- React.js
- Node.js
- Express.js
- MongoDB / SQL
- SAP (module SD, MM, PP, FI)

## Soft Skills

- Enthusiastic to gather new knowledge
- Teamwork
- Problem solving
- Proactiveness
- Persistence
- Communication

## Project

### FitBook (Exercise Tracking App)

Feb - May 2023

- Designed and developed the front-end interface for FitBook using React.js to provide a user-friendly and visually appealing exercise tracking experience
- Integrated the front-end with the back-end server built with Node.js and Express.js
- Utilized MongoDB as the database management system to store and retrieve exercise data
- Collaborated with Senior developer and Mentor to review code and to receive feedback to ensure quality code and adherence to project requirements
- Actively contributed to the development and improvement of FitBook's features and functionality
- Effectively communicated ideas, challenges, and solutions with the team, senior developers, and mentors, fostering a collaborative and productive work environment.

## Experience

### Thesis - (Team Leader)

Jan - May 2018

Chan Organic, Khon Kaen

- Developed and implemented data-driven forecasting models to improve production planning which increased the capacity of process 48% and reduced production cost about 38%
- Improved production process of the business, which was certified for Good Agricultural Practices (GAP) by the Department of Agriculture
- Researched and developed marketing strategy to increase sales revenue about 44%
- Improved overall business potential and increased net profit by 182%

## Certificate

### Junior Software Developer Program (Cohort 4)

Feb - May 2023

Generation Thailand

## Education

### Bachelor Degree of Business Administration (Management)

Jul 2014 - Jun 2018

Khon Kaen University
